

E-BULLETIN FROM OTSEGO COUNTY CONSERVATION ASSOCIATION
October 22, 2008: Vol. 1, No. 2

OCCA encourages businesses to use recycling bins

The Otsego County Conservation Association is encouraging local businesses to recycle by offering two different types of recycling bins at reduced prices. An outdoor bin for plastic bottles and aluminum cans features a clear plastic receptacle bag so that it will not be confused with a trash can. An indoor tandem bin is clearly marked for cans and plastic bottles on one side and for paper on the other. The retail price for both bins is \$75. Businesses joining OCCA at the \$150 level will receive the bin of their choice while businesses joining at the \$250 level will receive two bins, also of their choice. To view an informational flier with pictures of the bins, which also contains energy saving tips and suggestions for waste reduction in an office setting and in a cafeteria, please click on the link below:
