The Otsego Lakes Festival is sponsored by the Otsego County Water Quality Coordinating Committee. The OCWQCC was established in 1992 as a sub-committee of the Otsego County Soil and Water Conservation District. It is comprised of a diverse group of people representing state and local government agencies, non-profit organizations, academic institutions, and lake associations. These members have technical expertise and knowledge and are committed to working to improve and maintain the quality of water in Otsego County through the reduction of nonpoint source pollution within its boundaries.
